Voting at the Meeting

Voting at the Meeting will only be available for Shareholders present in person or Registered Shareholders and Duly Appointed Proxyholders. Guests and non-registered shareholders will not be allowed to vote during the virtual AGM.

For attendees voting virtually, a window will appear on the screen with selections relevant to the motion discussed. The individual will select their desired response and their vote will be collected.

The Zoom AGM platform supports two main types of voting; single motion and multi-motion. When a single motion poll is opened, the voting screen will come to the forefront of the device, whereas a multi-motion vote will appear within the navigation menu.

To cast your vote, simply press the voting option which corresponds with your desired choice. All responses will be received in real-time. There is no ‘Send’ button required.

Further instructions about the process will be provided by the moderator at the start and during the meeting.

A duly appointed proxyholder may be appointed by a shareholder to represent them at the virtual meeting, but the shareholder must submit their signed Proxy Form at least 48 hours before the meeting as noted above under “Registration Prior to the Meeting”. To appoint a proxyholder, shareholders **MUST** send the duly completed Proxy Form to the BCSD, as noted above, so that the BCSD may provide the proxyholder with a Control Number via email. Without a Control Number, proxyholders will not be able to vote at the meeting.

It is important that registered shareholders and duly appointed proxyholders are connected to the internet at all times during the meeting in order to vote when balloting commences. It is your responsibility to ensure connectivity for the duration of the meeting.
